Price	849 €

- AUTOMATIC ROLL-IN**
 The key advantage of the BRANCH AUTOMATIC lies in its return mechanism. With a simple lever, the system releases and the awning rolls back smoothly and automatically. No motor, no electronics, no effort required – reliable, quiet, and built to last.
- STURDY ALUMINUM HARD COVER**
 Aerodynamically shaped, cleanly designed, and finished in elegant black. The aluminum hard cover integrates seamlessly with modern vehicles, making the awning a stylish solution even for urban setups.
- INTEGRATED, DIMMABLE LIGHTING**
 Integrated LED lighting on the front and arms provides functional illumination around the vehicle – multicolor, dimmable, and adaptable to any atmosphere.
- FREESTANDING AWNING – EASY SETUP**
 The BRANCH automatic awning is self-supporting and can be set up by one person in seconds. In rain and wind, two telescopic poles provide additional stability.
- ADDITIONAL SHADE OPTION AVAILABLE**
 For extra shade, an optional side wall is available that can be attached to the front of the awning.
