### Installation

Driver / Passenger

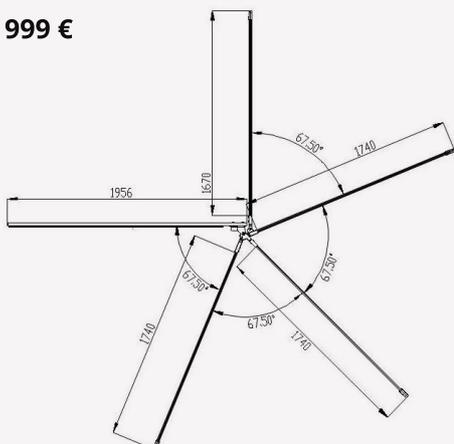

### Color

Grey

### Price

999 €

## Highlights

### • ABS HARD COVER – SLIM & DURABLE

The smooth high-performance ABS hard cover features a clean, minimalist design. It integrates seamlessly with modern city SUVs, compact campers, and design-oriented vehicles. At the same time, the impact-resistant and weatherproof hard shell reliably protects the awning during transport.

### • INTEGRATED LED LIGHT STRIP

The integrated LED lighting provides functional illumination and a pleasant atmosphere at night. Whether cooking, organizing, or relaxing together, your outdoor area remains perfectly lit.

### • SET UP IN SECONDS

Thanks to its innovative mechanism, the awning is ready to use in under a minute. Simply unfold and extend – done. The self-supporting construction ensures stability even without additional poles, while telescopic poles can be used optionally if needed.

### • EXPANDABLE INTO A PROTECTED SPACE

With the additionally available tent room, you can quickly transform your awning into a sheltered, nearly enclosed space – ideal in wind, rain, or when you want more privacy at the campsite.
